

# REPowerEU

The impact on Cohesion Policy

*31 March 2023*

# REPowerEU - Impact on Cohesion Policy

- Move away from fossil-fuels and reduce carbon emissions
- Entered into force this month
- Programme amendment to allocate up to 7.5% of the initial national allocation of ERDF or ESF+ to priorities contributing to REPowerEU objectives. Additional, and not sequential, to the transfer under Article 26 CPR
- Must include the details the total amount of resources contributing to REPowerEU objectives for each year by Fund and by category of regions
- Intervention codes for energy efficiency to be used, including R&D and SME support
- **CPR and Fund-specific rules fully apply**
- Voluntary transfer from the BAR possible
